Microsoft Office
Design Visualization
Technology Integration

Classroom Management
Child Development
Observation and Assessment

Clear Communication
Reporting Requirements
Strategic Planning

PROFESSIONAL EXPERIENCE

IvyPrep Education

Nov 2022 - Present

Teaching Assistance

All students in the 4-10 age range have shown significant improvement in behavior and conduct before the 1st course. Before I arrived, these students were considered to be difficult to manage, and no other teacher had been able to make a lasting impact. Meanwhile, Upper-level students are more excited about learning English and get high grade in the last mock test. At the end of the day, over 85% of students have met or exceeded the learning objectives for the school year

Accomplishments:

- Conserved time by reading, researching and analyzing information in advance.
- Kept organized academic records and reports for progress tracking.
- Undertake teaching responsibilities when the class teacher is absent/unavailable on campus.
- Assist the teacher with age-appropriate activities by working with individual or small groups of children to present or reinforce learning concepts, providing the appropriate support and stimulation to meet children's varying needs.
- Identified students struggling with subjects and recommended solutions to lead teacher.

MindX Technology School

Feb 2020 - Nov 2022

Operating Assistant

Successfully managed a center when the manager was away for over half year. Effectively managed the company's information and database for over 1 year without any problem. Present manager in order to respond to customers if needed.

Accomplishments:

- Supported meetings by setting up spaces, making a presentation as required for the senior manager and taking detailed notes.
- Answered telephone calls, email requests and written correspondence to achieve internal and external communication objectives.
- Entered large volume of information daily with high degree of accuracy.
- Created digital documents from paper or dictation.
